

## Salon Style

Salon Style is a comprehensive range of brushes used to create salon professional styles. Radials, hot curls, vents, and paddle designs all with a definitive gloss black and chrome finish come in a huge choice of sizes. They perform endlessly without catching or damaging hair. Rubber grips provide comfort and the streamline radial handle ensures a successful blow drying technique.

9 Row - rubber pad,  
nylon quill, anti static

**AS10**  
Folding brush - rubber pad,  
nylon quill, handbag size,  
anti static

**Anti Static**

Static electricity is a natural phenomenon all around us, caused by friction between two things, such as hair and a brush, and impossible to eliminate totally. Flyaway hair can be helped by using one of our anti-static brushes which have been made using the most static-resistant materials we can possibly use in a hairbrush.
